## Most Human Ills Originate In The Stomach

CCIENTISTS agree that the stomach is responsible for at least 80% of all human ills.

Indigestion is a direct result of a disordered stomach.

A torpid liver, palpitation of the heart, shortness of breath, dizzy spells, backache, nervousness, headache, constipation, rheumatism and that tired-out, rundown, worn-out feeling are also in most cases caused by stomach troubles.

Tanlac, the world's greatest medicine, is designed to tone up the stomach so you will eat better, sleep better, feel better and work better.

That Tanlac does this is proven beyond question by the statement of hundreds of thousands who have taken it. Go to your nearest druggist.
